Custom website

**1 Your school's branded website with no coding required
No website? No credibility. No sales. Period. Instead:**

- A clean, branded website that's so good it makes your students stick around.
- 24/7 sales channel. Your website never sleeps. Neither do the sign-ups.
- Complete control. Forget relying on algorithms. With your own website, YOU make the rules.

White-Label App

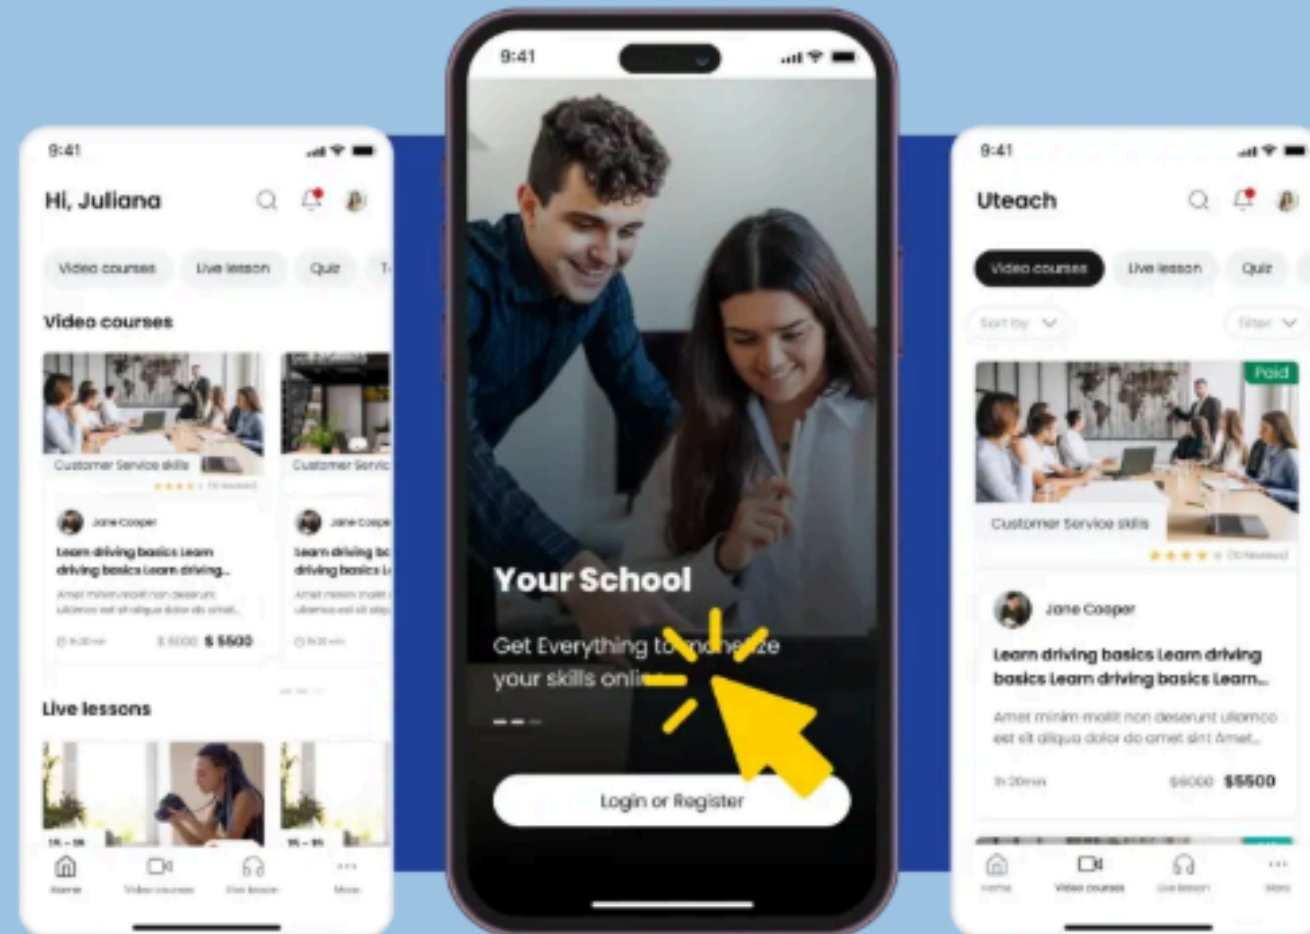

2 Your branded app on marketplaces

Why settle for basic when you can have your own app?

- **Have your classroom in everyone's pocket**— but cooler.
- **Push notifications**— that keep students engaged and never miss a beat.
- **Look legit.** Your school's name pops up in app stores—just like the big players.

*This is your app. With YOUR brand. Imagine that.
